

it-motive eSales solutions
in use at Siemens:

The Sales Configurator CAD CREATOR for Siemens

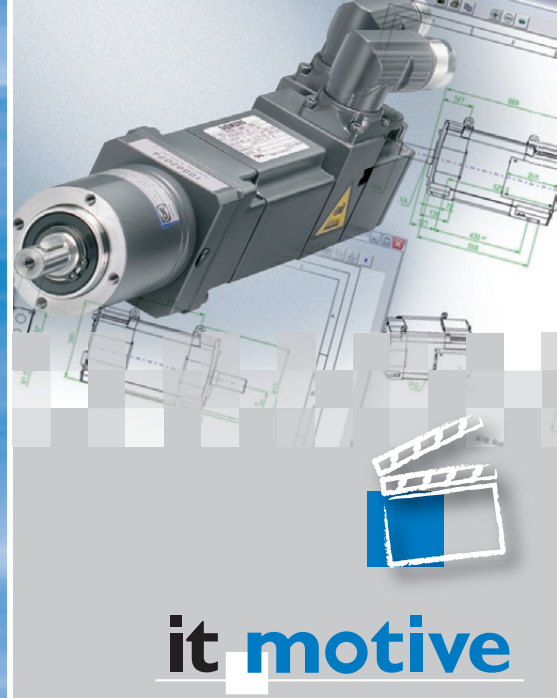

The **it-motive AG** is a systems and consulting company, its core business is in logistics. In the eBusiness environment it-motive AG has many years of experience and its own software solutions in eSales, eConfiguration, eLogistics and eProcurement.

it-motive AG supplies solutions for sales configurators based on it-motive's own **INKAS platform** (incl. CAD generators 2D and 3D) and spare part or eProcurement catalogs, e.g. for Siemens.

Siemens Drive Technologies division has around 40,000 employees and is always setting new standards in drive technology. However, Siemens is also a leader in customer services:

Siemens Drive Technologies provides its customers with **CAD CREATOR** an enhanced, electronic catalog and configuration system.

It enables design engineers to configure gear motors within only a few minutes, to place orders and to integrate the appropriate CAD data in their designs.

Siemens requirements:

- Customer needs CAD data of synchronous, asynchronous, torque and gear motors, control components and motor spindles
- Complex mapping of rule set, configuration step by step
- Different start screens can be selected
- Optional accessories and special versions/extras (option logic)
- Configuration results can be saved (Project list)
- CAD 3D and 2D (also as preview), dimensional drawings
- CAD 3D in all common formats
- Complete product documentation for configuration results
- Online and as DVD
- Link to Siemens drive project work tool

The answer from it-motive:

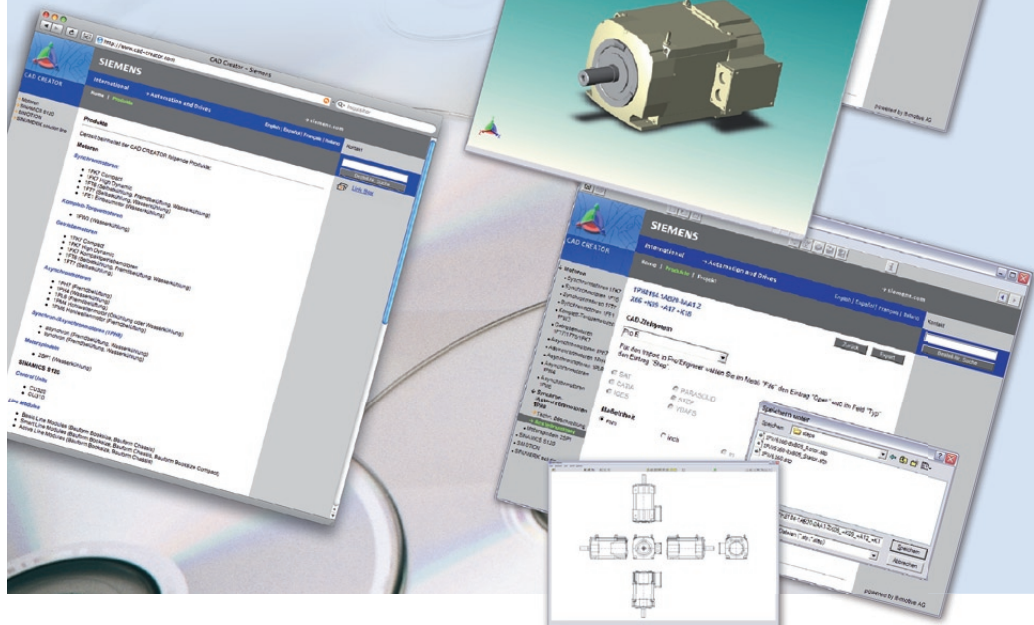

The multilingual sales configurator
CAD CREATOR for Siemens.

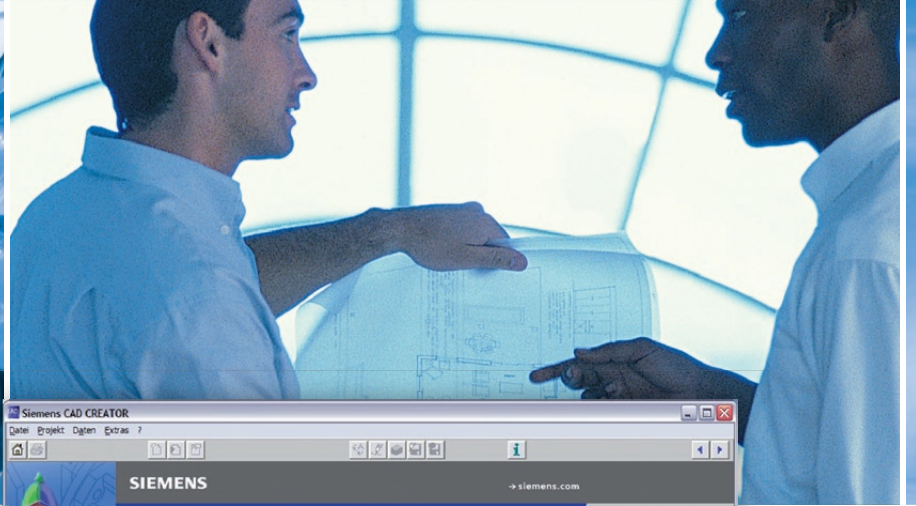

Online

■ www.cad-creator.com

Offline

■ DVD

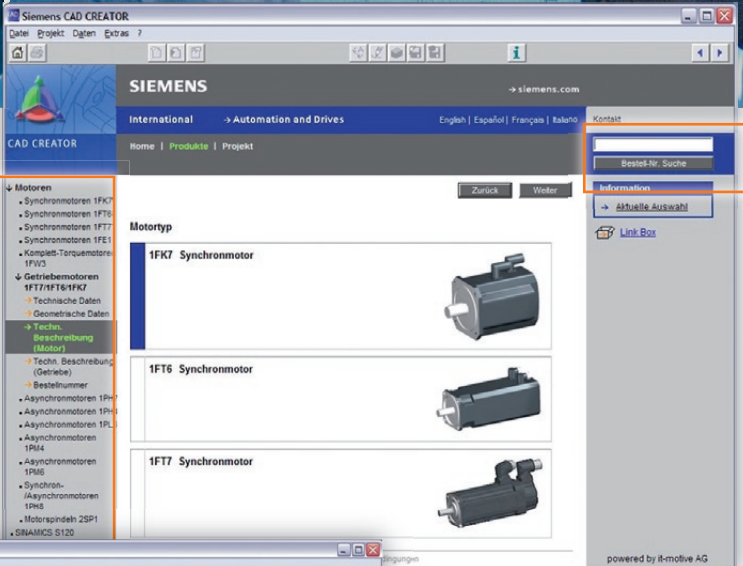

Different start screens

The customer can select whether they want to enter ...

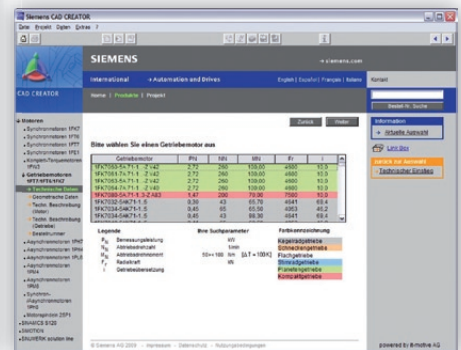

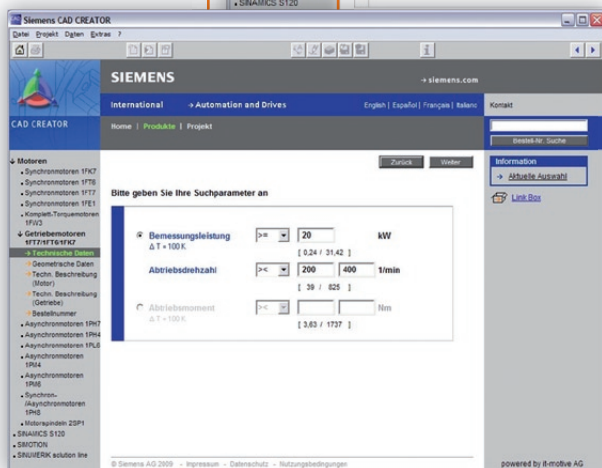

- Geometric data (e.g. Shaft diameter etc.)
- Technical description (e.g. size of engine, design)
- Order number or type key selection

... start screens.

This ensures a faster and simpler configuration process for all target groups.

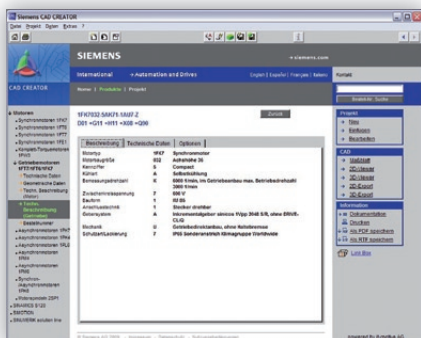

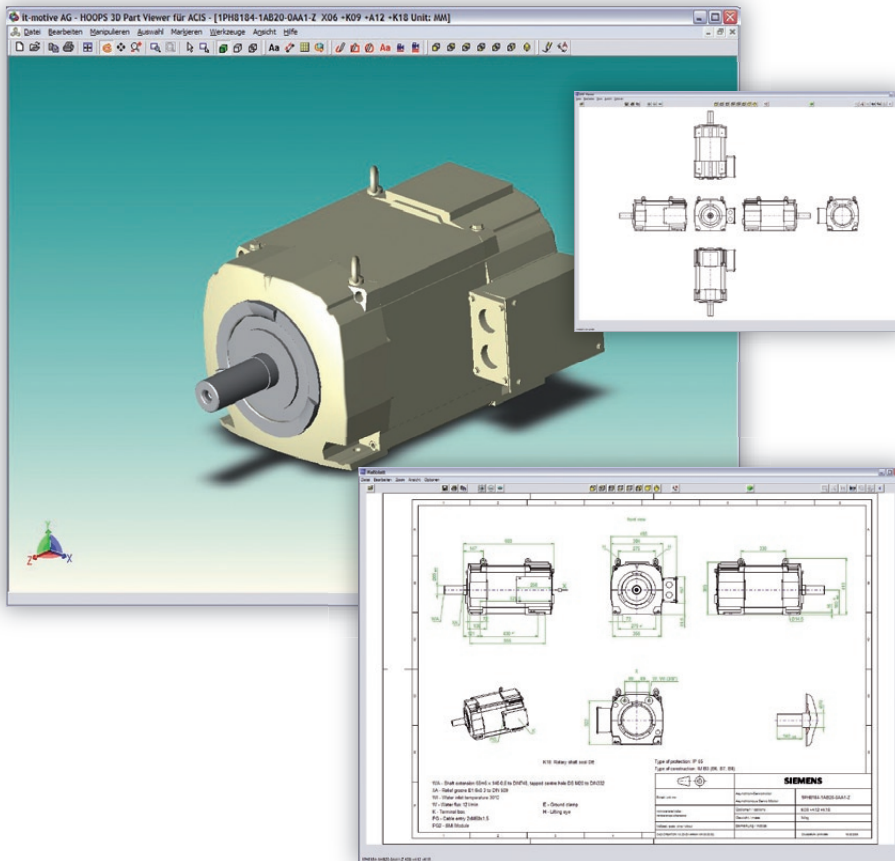

Selection according to technical data

Results data sheet

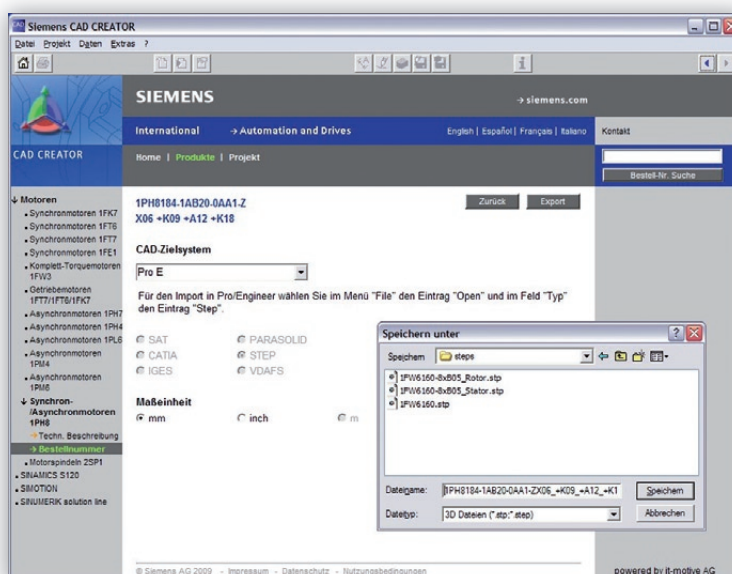

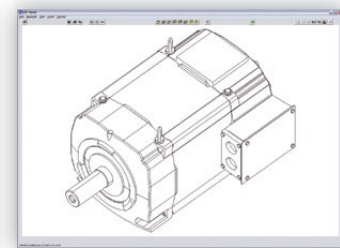

- Product specification
- Technical data
- Options
- Product descriptions can be opened in different file formats

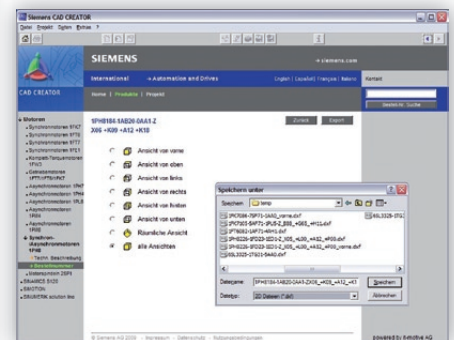

CAD On Demand

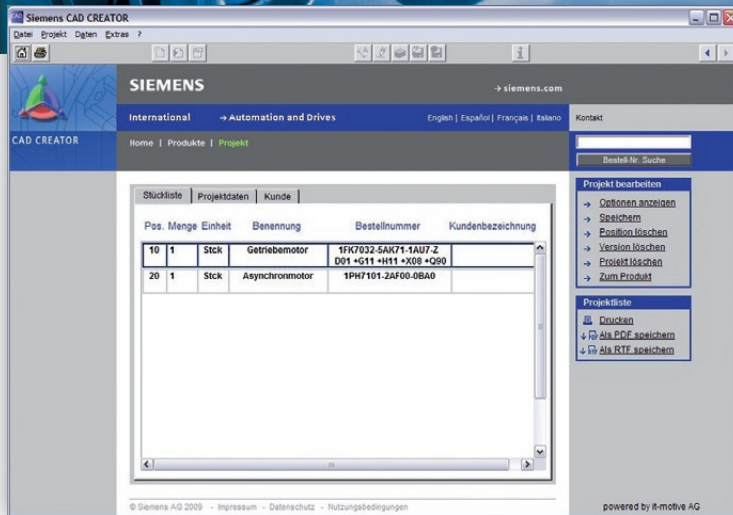

Online generation and provision of the CAD models, 2D views and dimension sheets. With high precision and high performance.

3D/2D – CAD Export

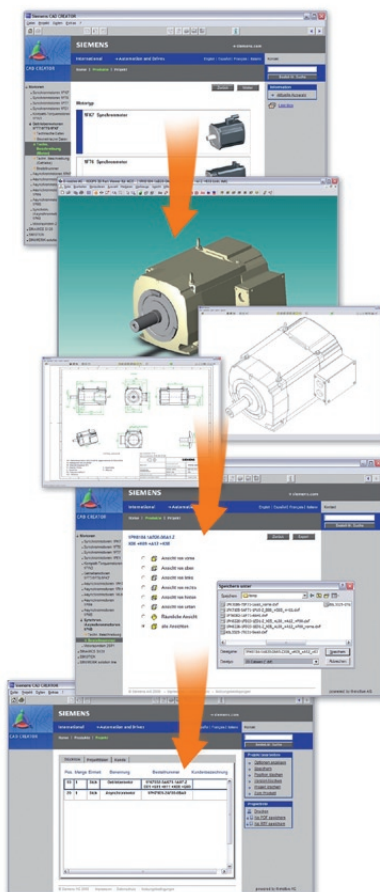

- All common formats
- 2D in all views
- Units inch/mm

Project lists

Archive configurations as a project, useful for later work.

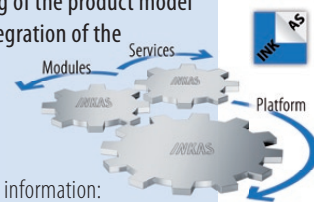

CAD CREATOR for Siemens

- Select the product using the order number or technical data
- Specially view 3D models and download 3D and 2D presentations in all common formats
- Save project
- Complete technical documentation

CAD CREATOR for Siemens – Part of the INKAS platform

CAD CREATOR is part of the INKAS platform – the flexible solution for modern eBusiness.

- It covers the entire process from pre-selection up to completion of product description
- 100 % SAP integration
- Online generation and provision of CAD models (3D, 2D), circuit diagrams and technical documentation
- Available online and offline (DVD)
- High performing and therefore also suitable for complex and high variant rich products
- Open and flexible
- Additional functions such as graphic assembling, PDF with 3D views, technical layouts or also start screens, options logic etc. available
- Database can be stored as a single unit in SAP system
- Seamless exporting of the product model in SAP R/3 and integration of the technical rules
